Education

MIT Art, Design and Technology University, Pune

Bachelor of Technology in Computer Science and Engineering **CGPA - 8.42**

Expected May 2027

Pune, Maharashtra, India

Bhausaheb Deshmukh Junior College

Maharashtra State Board

May 2023

Nanded, Maharashtra, India

Wellington Vidhyalaya

Maharashtra State Board

May 2021

Nanded, Maharashtra, India

Relevant Coursework

- Data Structures
- Database Management
- Computer Networks
- Processor Architecture
- Software Engineering
- Prompt Engineering
- Operating System
- Computational Thinking

Experience

Web Development Intern

Jun 2025 - Jul 2025

Careasa Healthcare Pvt. Ltd.

Remote

- Developed and enhanced responsive web applications using modern frontend and backend technologies, improving user experience across devices.
- Collaborated with cross-functional teams to debug issues, optimize performance, and maintain clean, scalable code, ensuring reliable application functionality.

Technical Skills

Languages: C/C++, Java, Python, JavaScript, SQL, HTML, CSS.

Frameworks and Libraries: ReactJS, NodeJS, ExpressJS, TailwindCSS, Sequelize, Spring Boot.

Databases: MongoDB, MySQL, PostgreSQL.

Other Technologies: Git & GitHub, Postman, Canva, Figma

Projects

GST Compliance Assistant | 🗄️ MongoDB, ExpressJS, ReactJS, NodeJS, JWT, Vite, TailwindCSS **Jan 2026 - Present**

- Spearheaded development of a full-stack GST compliance platform, reducing manual invoice processing time.
- Executed secure authentication and authorization using JWT and bcrypt for password hashing, enhancing application security.
- Integrated REST APIs and file-based imports, increasing data processing efficiency.
- Implemented automated GST calculation and ITC tracking, improving tax accuracy.

Smart Retail Connect | 🗄️ MongoDB, ExpressJS, ReactJS, NodeJS, JWT, Vite, TailwindCSS **Jul 2025 - Nov 2025**

- Engineered a digital platform connecting customers with local kirana shops, reducing search time.
- Implemented role-based authentication supporting multiple user roles (customers, shopkeepers, delivery partners) using secure login mechanisms.
- Enabled real-time product availability and price comparison, improving purchase efficiency.
- Digitized shopkeeper operations, increasing sales opportunities.

Uniconnect | 🗄️ ReactJS, Vite, TailwindCSS, Appwrite **Jan 2025 - May 2025**

- Developed a centralized university communication platform, reducing information fragmentation.
- Replaced traditional email and social media communication, improving content reach and engagement.
- Built a responsive blog system for academic content, events, and discussions, increasing user interaction.
- Enabled structured collaboration among students, faculty, and administration, improving accessibility.

Achievements

- * Cleared JEE Mains.
- * Solved over **200+** Data Structures and Algorithms (DSA) problems across various platforms.
- * NPTEL Certified in Design and Analysis of Algorithms (DAA).
- * Project Lead, **Uniconnect** – Led end-to-end development of a proprietary project with registered copyright, showcasing innovation and original technical design.
