Education

MIT Art, Design and Technology University, Pune — **Expected May 2027**
Bachelor of Technology in Computer Science and Engineering ***CGPA - 8.42*** — *Pune, Maharashtra, India*

Bhausaheb Deshmukh Junior College — **May 2023**
Maharashtra State Board — *Nanded, Maharashtra, India*

Wellington Vidhyalaya — **May 2021**
Maharashtra State Board — *Nanded, Maharashtra, India*

Relevant Coursework

- Data Structures
- Object-Oriented Programming
- Database Management
- Operating Systems
- Computer Networks
- Cloud Computing
- Artificial Intelligence and Deep Learning
- Big Data Technologies

Experience

Web Development Intern — **Jul 2025**
Careasa Healthcare Pvt. Ltd.

- Developed and enhanced responsive web applications using modern frontend and backend technologies, improving user experience across devices.
- Collaborated with cross-functional teams to debug issues, optimize performance, and maintain clean, scalable code, ensuring reliable application functionality.

Technical Skills

Languages: C/C++, Python, JavaScript, SQL, HTML, CSS.

Frameworks and Libraries: ReactJS, Tailwind CSS, Vite, NodeJS, ExpressJS, Mongoose.

Generative AI: LLMs, LangChain, Retrieval-Augmented Generation (RAG), Embeddings, Vector Databases, Tool Calling, AI Agents, Prompt Engineering.

Databases: MongoDB, MySQL, PostgreSQL.

Other Technologies: Git & GitHub, Postman, Canva, Figma.

Projects

AI Code Debugger | *Python, FastAPI, LangChain, RAG, Gemini, HuggingFace, Qdrant, Incremental Indexing*

- Built an AI-powered VS Code extension for automated debugging using logs, source code, Git, and diagnostics.
- Designed a RAG pipeline using LangChain, Qdrant, and HuggingFace embeddings for semantic and exact code retrieval from GitHub repositories.
- Developed FastAPI APIs with Gemini for automated error investigation and root-cause analysis.
- Implemented Git-based incremental indexing to reduce redundant processing and keep debugging context updated.

GST Assistant | *MongoDB, ExpressJS, ReactJS, NodeJS, Gemini, bcrypt, REST APIs, JWT, Vite.*

- Spearheaded development of a full-stack GST compliance platform, reducing manual invoice processing time.
- Executed secure authentication and authorization using JWT and bcrypt for password hashing, enhancing application security.
- Integrated REST APIs, automated GST reminders, and an AI-powered tax chatbot for efficient data processing.
- Implemented automated GST calculation, ITC tracking, and JSON export.

Achievements

* Cleared **JEE Mains**.
* Solved over **200+** Data Structures and Algorithms (DSA) problems across various platforms.
* **NPTEL** Certified in Design and Analysis of Algorithms (DAA).
* **GST Assistant** – Research Paper Accepted for Publication in Springer LAIS (SCOPUS-indexed)
* **Uniconnect** - Copyright Registered
